EX-KAISER IS EXPECTING TO RESUME REIGN

Attracting Monarchists to His Secluded Home.

IS A LAVISH HOST
Hermine Consumed With Desire to be Empress of Germany—Is Angered at Son's Hopes.

By Associated Press.
DOORN, Sept. 20.—Life at the Chateau of Doorn has become, particularly during the past few months, extremely animated. Every day, almost sees the arrival of fine automobiles bringing princes, ex-ambassadors, former ministers and generals who had served under the old regime in Germany. Some of the visitors leave after a day or two, but others prolong their stay, residing for the time being in expensive "pensions" where they make an ostentatious display of their war decorations, and pay almost daily visits in full dress uniform to the ex-Kaiser.

The former emperor appears to be doing everything possible to entertain and attract to himself the sympathies of all German monarchists and military circles. His consort, Hermine, who lives with the desire and hope of one day becoming empress of Germany, spends her husband in these efforts in the most active manner, and with all the grace at her command, by holding grand receptions and entertainments.

All these activities have for their principal object, according to what is related in the best informed quarters, to counteract similar ambitions projects entertained by the former crown prince. It is said that the rivalry between father and son has developed recently into a state of latent warfare, pursued mercilessly on both sides.

The activity displayed since his return to Germany by the former crown prince in political circles, especially among the Nationalists and Monarchists and the younger generation of militarists, rumors of which reach the ex-Kaiser from Berlin, serve to render the latter furious against his son. The prince, on his side, is said to show but little either respect or admiration for the personage of the old regime and its time-honored tradition.

The ex-crown prince would seem to be desirous of breaking definitely with the ideas and preoccupations of the past, and even to be willing to find himself at the head of a regime purely democratic, provided that it was at the same time nationalist. The former emperor, on the contrary, clings desperately to the ideas and persons of the past, and shows himself a bitter and unchangeable enemy to all democratic sentiments.

Motorcycle Victim In Serious Condition

The condition of Milton Hurst Jr. who was hurt in a motorcycle accident Thursday is somewhat critical, according to reports today. Physicians have not yet been able to make a thorough examination. It is reported that he may have suffered a fractured skull.

The boy was riding along Cumberland avenue, according to reports, and the motorcycle turned over when he reached down to make an adjustment. He was dragged a short distance by the vehicle before it stopped. After the accident he was taken to the hospital and later removed to his home.

FIGHS K. K. K.

"Free Kansas From Klan" is Candidates Slogan.
TOPEKA, Kans., Sept. 20.—With his slogan "Free Kansas from the Ku Klux Klan," William Allen White in a statement issued today in connection with the filing of his independent candidacy for governor declared: "I am in the race to stay and win."

FOUR SERVICES FOR TOMORROW

Dr. McKee to Conduct Two Special Services at Presbyterian Church.

Four big services are being planned for tomorrow at the First Presbyterian Church which at that time starts on the second week of its revival services. Dr. J. L. McKee of Kansas City, the evangelist, will speak at each of these meetings and Miss Mary Dan Harbeson, accomplished singer, will sing.

The first of these services will be at the 11 o'clock church hour and at this time Dr. McKee will preach one of his powerful sermons. Then at 2:30 p. m. there will be a special children's meeting. All of the children of the city are urged to attend this meeting at which time Dr. McKee will tell Bible stories and explain in simple terms their application to present day life.

OLD IRON FIRM OUTS BUSINESS

Mill Has Been In Operation for a Century—Now in Heart of Pittsburgh.

Associated Press.
PITTSBURGH, Pa., Sept. 20.—One year less than a century ago an iron mill was built on the outskirts of Pittsburgh. It was a small affair, constructed on the banks of the Allegheny River by the firm of Millenberger and Brown. For 99 years it grew and played an important part in the city's industrial life but now, instead of being on the outskirts of Pittsburgh, it stands within a few blocks of the very heart of the city's shopping and office center.

And this is the chief reason the old independent iron and steel mill in Pittsburgh is being torn down. The firm of Brown and Co., Inc., the present owners, is going out of business because there is too much business. The site of the mill occupies about three acres and if it continued operation it would be necessary to expand. And there is no room for expansion. On three sides are tall buildings and on the other is the river. J. Stuart Brown the grandson of the founder, said he did not wish to assume the responsibility of erecting a new plant elsewhere and he felt he deserved a rest. Consequently the business will be discontinued.

Decision to stop work in the mill was reached last June, and not a wheel of its machinery has turned since. When running at full capacity the plant employed between 400 and 600 men. Most of the old employees have found work elsewhere.

Stolen Ford Found

The Ford car belonging to Speed Marace which was stolen from the street near the passenger depot a few days ago has been located at Well Fork, Pa., according to police officers. The two rear wheels had been taken from the car before it was found.

FEW BAD PLACES ON DIXIE ROUTE

Route "A" in Splendid Condition—Manager Detroit Tourist Office Says.

ASHEVILLE, Sept. 20.—There are fewer bad miles of detours on Dixie Route A from Cincinnati to Asheville, Hendersonville and Florida points than on the Eastern Route through Washington and Richmond to southern points, according to Edward Matheson, manager of the tourist information bureau of the Detroit Automobile club. Mr. Matheson made this statement to Roscoe A. Marvel, the president of the Asheville Western Carolina Motor club in the campaign it has waged in Kentucky and other points north for the improvement of the highway as a through artery of travel between the north and midwest and the south, in that it will cause an immense amount of travel from the south into the northern resorts, and afford a short scenic route for the people of the north and west who wish to go south during the winter and in other seasons.

Mr. Matheson was accompanied by N. Buckner, manager of the Asheville Motor club from Berea to Asheville. They left Corbin, on Saturday morning and drove into Asheville that night, a distance of 248 miles. Actual driving time averaged a fraction less than 20 miles per hour.

Of the 8 mile detour between London and Corbin, 6 miles will be cut out and traffic turned onto the beautiful new macadam road this week, and the remaining two miles of detour is good road for a detour. The contractor has made unusual speed in laying this first six miles out of London, and expects to complete the entire link by November 15 to 30.

The Tennessee Highway commission has resurfaced all rough sections of road between Cumberland Gap and Knoxville, and only three hours are required for Middlesboro to Knoxville a distance of 70 miles.

The state has taken over the first five miles of road out of Barboursville through Dismal Springs toward Corbin, according to J. A. McDermott, president of the First State Bank of that city, and the remaining 8 miles to Woodbine, just south of Corbin, will be maintained for through travel, though it is advisable to use chains in wet weather. The concrete road from Barboursville to Corbin is being laid now at the rate of from 4500 to 8000 feet a day, and it is expected to complete this stretch by the middle of November.

Maps and logues will be issued and distributed by the ten thousands covering Dixie Route A by the Detroit Auto Club, which will be a great service to touring motorists. Road from Knoxville to Asheville 126 miles, in fine condition, driving time about 6 hours.

BOOK SHORTAGE NOT ACUTE HERE

Superintendents City and County Schools Report No Serious Inconvenience.

School text-book shortage which has become acute in some parts of the state is scarcely felt here, according to Prof. J. W. Brander, superintendent of city schools and Superintendent Camie Wilson, of the Bell county schools. Drawing books are scarce and slight delays have been experienced by some in getting other books but no one has been seriously inconvenienced.

Not more than half of the new text-books were adopted by the schools inside the city. It being within the power of the city board to choose books for the term. Superintendent Wilson reports that many of the children have not bought their books but this is due to a lack of funds and not a shortage of books.

Nearly Million Members of Y. M. C. A.

Associated Press.
ATLANTIC CITY, Sept. 20.—A membership of 988,000 was reported today at the annual convention of the International Council Young Men's Christian Association. This represents an increase of approximately nine percent during the year.

Maryline Allen of Covington, Ky., is only 18 months old—but she can read the alphabet as good as the average adult. This picture here was taken during a test judges, educators, newspapermen and others gave her.

MINISTER BOUGHT QUANTITY POISON

Attorney Says There is Enough Evidence to Bring Rev. High to Trial.

Associated Press.
MOUNT VERNON, Ill., Sept. 20.—Important additional information has developed within the past few hours in the case of the Rev. Lawrence High, in jail here on a charge of murder as a result of poison found in his wife's stomach, according to announcement of the state's attorney today.

"We have evidence how to go to trial on the murder charge," he declared. State's Attorney Thompson declined, however, to reveal the nature of the information uncovered, but said that at the proper time it would be shown that the minister was in the market for poison on a rather extensive scale this summer.

Many Requests for Motor Permits Made

Associated Press.
FRANKFORT, Ky., Sept. 20.—Applications from many business-men over the state are being received by Griffin Kelly, executive agent of the motor bus department of the state highway department, he said today, for permits to operate on a number of roads, in event of adoption of the \$75,000,000 bond issue.

The applications seek first change on the roads which would be built according to the plans of the act, Senator Kelly said.

Week's Weather Forecast
WASHINGTON, Sept. 20.—The weather for the next week: Mostly fair, except showers about the middle of the week; cool during the first part, near normal temperatures thereafter.

Did You Ever Stop to Think

By E. R. Waite, Secretary, Shawnee, Okla., Board of Commerce

THAT it takes more than good intentions to make a city bigger and busier.

THAT a city is getting somewhere when it becomes known as a hub of progress, an industrial center, a city of homes and a good place in which to live and make a living.

THAT nowadays there is as much competition between cities as there is in business.

THAT there is no limit as to what a city can do when its citizens work and stick together in a united effort for the home city.

THAT the greatest fault some cities have, lie in the failure of its citizens to have a forward vision.

THAT where the citizens have a vision of its future, and cultivate it to the fullest extent by co-operative effort, the city gets somewhere.

THAT the success of a city is not usually due to one man or any set of men but is due to the fact that every citizen is doing his or her best to help.

CONVICT SLAYS HIS BENEFACTOR

Murdered Woman Who Gained Him Clemency—Looted Her Apartment.

PASADENA, Cal., Sept. 20.—Mrs. Clifton Humm, wife of wealthy Chicago business man, was killed last night by a former convict she once secured clemency for at the Illinois penitentiary. Police say the convict smashed the woman's head with a hammer, shot her through the heart and looted her apartment of gems valued at \$20,000. Harry Connor is being sought in connection with the murder. He was formerly Harry Babut and was released from the Illinois penitentiary some time ago. A cousin of the slain woman who invited him to remain for dinner was locked in the bath room while the convict killed the hostess.

Urges Vaccination of School Children

Children who attend the city schools are urged to be vaccinated before Monday, September 22, in a statement issued by Mrs. Eunice Morris, public health nurse, this afternoon.

Parents are requested to have this matter attended to if the children have not been vaccinated. Vaccinations are made compulsory through state legislation (Section 4088 Kentucky Statutes). The law pertaining to the subject in the general code of Kentucky follows: "No person shall become a member of any public or private school within the jurisdiction of this board (State Board of Health) as teacher or scholar without furnishing a certificate from some reputable physician that he or she has been successfully vaccinated, and has been vaccinated every seven years."

MAKE SURVEY OF KENTUCKY COAL

Dr. Jilison Will Make Survey—Instructive Data to Be Compiled.

Associated Press.
FRANKFORT, Sept. 20.—A detailed picture of Kentucky's principal industry, coal production, soon will be furnished by Dr. Willard Rouse Jilison, state geologist, he said today, completing a study of its every feature from the days of the Appalachian Indian to the present moment.

Details of the work have occupied off and on, a good part of the last three years, he said. Assisting him in the work have been field men of the department, reports of coal operators, federal and company reports, engineers, and others.

Statements from J. E. Johnson, secretary, Hazard Coal Operators' Association, Lexington; Ed Clayton, secretary, Hazan Coal Operators' Association, Harlan; R. E. Howe, secretary, South Appalachian Coal Operators' Association, Knoxville, Tenn.; J. C. Reed, secretary, West Kentucky Coal Operators' Association, Louisville and C. K. Neekamp, secretary, Northeast Kentucky Coal Association, Ashland, were checked by personal trip of inspection of Dr. Jilison and his corps of assistants.

"The geological survey has been actuated by desire to assist operators in advancement of the state's principal industry," Dr. Jilison said, "an industry which involves more capital, covers more territory, pays more royalties, and pays more taxes into the state and into the county treasuries than any other mineral industry in the state. 'This degree of supremacy always will hold true of the coal industry in Kentucky.'"

The fruits of his study, when completed and compiled, will cover the discovery and early use of coal, the period before and after the civil war, coal mining methods, analysis of mine samples, geology and production of coal and detailed figures and facts about the eastern and western coal fields, he said.

Champ. Poultry Club Member at the Fair

Associated Press.
LOUISVILLE, Sept. 20.—Producing the Kentucky champion poultry club member, Ella Haug, of Jeffersonstown, at the state fair with an exhibit of 20 Rhode Island Reds, Jefferson county will hold its poultry day next Wednesday, J. Lewis Lettler, president of the farm bureau announced today.

The center of activities will be A. C. Greenman's farm near Anchorage, where not only a basket of picnic lunch will function, he said, but discussions of the future of poultry in Kentucky will hold forth.

STATE MEDICOS TO MEET MONDAY

Special Phases of Medical Profession Will Be Discussed at Convention.

Associated Press.
LOUISVILLE, Sept. 20.—An eye, ear, nose and throat section, a surgical section, and a five days' session devoted to details of modern surgery will occupy the Kentucky Medical Association in annual convention next week, according to Dr. John G. Clem of Louisville, convention chairman.

Physicians from all parts of the country as well as about 1,000 Kentucky doctors will be here, he said. While the convention proper begins Tuesday, the eye, ear, nose and throat specialists will meet on Monday in the morning with the surgical section meetings that night, he said.

On Tuesday, Dr. Frank Boyd of Paducah, president, will call the convention to order and events will move fast for the professional men until Saturday evening when the clinic demonstrations will draw to a close.

A trip to Lakeland is included in the program.

Held to Grand Jury
Bob Garin, charged with two cases of unlawful entry, is held to the Bell county grand jury. The defendant who is charged with entering two local houses on the same night and with taking five dollars from one of them stated in police court that he had no recollection of such offenses.

REPRIVE GRANTED

Condemned Youth Get Extension of Time

SPRINGFIELD, Ill., Sept. 20.—Governor Small today granted a ninety day reprieve to Bernard Grant, Chicago youth awaiting the death penalty on charge of murder.

DEFENSE CRAFT, COOLIDGE TALK

Secretary Wilbur Has Session With President—Discusses Type War Crafts.

Associated Press.
WASHINGTON, Sept. 20.—Secretary Wilbur whose western speaking tour was cut short when the president requested his return to Washington visited the White House today and at the termination of the interview with the president announced that a special board would be appointed to investigate the relative importance of air, submarine and surface craft in the navy.

Appointment of the board was suggested by the president who indicated that he desired the matter to be considered immediately "with a view to adjusting the budget" in accordance with whatever conclusions are reached by the board. Secretary Wilbur declared emphatically that in speeches made on the Pacific Coast were not mentioned at the White House conference. Only technical details and the budget were considered, Wilbur asserted.

Investigation Supt. Wilson Being Made

PINEVILLE, Sept. 20.—Investigation of methods employed by the county superintendent Camie Wilson in conduct of affairs of the Bell county public schools is being made by W. L. Therkeld, auditor of the state department of education and L. N. Taylor, former assistant state superintendent.

A number of alleged irregularities in management of Supt. Wilson's office were reported by state investigators under the regime of George Colvin, former state superintendent of public instruction.

TO BUILD QUAKE PROOF RESIDENCE

Residents of Manila Endeavoring to Build Houses to Withstand Tremors.

Associated Press.
MANILA, Sept. 20.—Manila is studying what steps it would be advisable to take to guard against devastating effects from an earthquake such as visited Tokio a year ago. Speaking of the importance of this geological work, Dr. R. E. Dickerson, a member of the local earthquake board, said recently.

"The recognition of recent earthquake lines of the Philippines is of particular importance in the construction of dwelling houses, business buildings, water supply, cables and power transmission schemes. It is particularly great light to recognize these lines in advance of destructive earthquakes along them, in order that certain precautions be taken in engineering structures."

"Manila is built upon the delta of the Pasig river and its soil is very unconsolidated. That such loosely filled areas suffer far more severely than bed-rocked localities is evidenced by all large earthquakes. On this account Manila's higher buildings should be built upon a non-elastic foundation and preferably of reinforced concrete or steel frame construction, very strongly tied."

Optometrists Discuss Non-Ethical Ads

At a meeting of the State Board of Optometrists at Louisville yesterday the proposition of revoking licenses for non-ethical advertising was discussed. It was thought that the board would consider the revoking of licenses for non-ethical advertising.

ADVANCE MADE BY CHEKIANG TAKE POSITION

Chekiang Troops Are Being Constantly Reinforced.

Associated Press.
SHANGHAI, Sept. 20.—An engagement which started at daybreak reinforced Chekiang troops along the front between the Shanghai-Nanking railway line and the Kiating pushed the invading Kiangsu forces back, strengthened their lines and regained positions. Some fifteen hundred Chekiang troops arrived today.

PLENTY OF ARMS

Arsenals Turning Out Machine-Guns, Chekiang Airplanes, etc.

Associated Press.
SHANGHAI, Sept. 20.—An engagement which started at daybreak reinforced Chekiang troops along the front between the Shanghai-Nanking railway line and the Kiating pushed the invading Kiangsu forces back, strengthened their lines and regained positions. Some fifteen hundred Chekiang troops arrived today.

The heaviest shipment of arms to arrive in a single day moved from Shanghai today. The arsenal here is working day and night refilling shells. The Chekiang counter attack covered the lost ground, the official statement declared.

By Associated Press.
SHANGHAI, Sept. 20.—The Chekiang troops, ending Shanghai's seven-day bombardment of the city, are holding the line of Shanghai against the Kiangsu forces fighting for the possession of the city.

By defending troops their commander assured foreign correspondents that his troops were sentries posted thirty miles from Shanghai, leading to total refusal to permit any foreigners including press observers. At one point yesterday an artillery bombardment began in West Shanghai, bombs being dropped within miles of Shanghai with no material damage being done.

State Collects Tax From Stored Wheat

Associated Press.
FRANKFORT, Ky., Sept. 20.—There are 277,548 barrels of wheat in Kentucky upon which state collects taxes, according to a report from the auditor's office today. The tax is 1 cent per bushel.

In the largest warehouse in the state, near Louisville, there are 33,995 barrels, the report showed. In the next largest, near Lexington, there are 10,000 barrels. Other large warehouses are near Frankfort, Paducah, and Glasgow. The total tax collected is \$2,775,480.

World Fliers Offer For El Paso

Associated Press.
DALLAS, Tex., Sept. 20.—An army world flier with commander, Edwin H. Taylor, Jr., took off at 10:30 a. m. for El Paso, Tex., to make a delivery.

THE CASE

Lawyer charged with two cases of unlawful entry, is held to the Bell county grand jury. The defendant who is charged with entering two local houses on the same night and with taking five dollars from one of them stated in police court that he had no recollection of such offenses.

At a meeting of the State Board of Optometrists at Louisville yesterday the proposition of revoking licenses for non-ethical advertising was discussed. It was thought that the board would consider the revoking of licenses for non-ethical advertising.

PRESIDENTIAL AHEAD

One of the most interesting fea-
tures in the early returns of the
Literary Digest poll of 15,000,000
votes published today is the steady
loss by John W. Davis, the dem-
ocratic nominee to Senator LaFollette.
A total vote of 16,071 is
tabulated for Coolidge, 5,596 for
LaFollette and 3,792 for Davis
with 305 votes scattered among
the other five candidates.

The ballots come from five piv-
otal states of California, Illinois,
New York, Ohio and Pennsylvania
with LaFollette running second in
the first three and Davis second in
the last two. The early vote in
Illinois shows that the president
is running strong with a slight
lowering of the Harding vote of
1920. In Ohio, Coolidge is stronger
than Harding, "a native son" in
1920, showing that Davis is not
carrying the full Cox vote of that
state and that the republicans are
losing nothing to LaFollette.
Pennsylvania is running true to
form with prospects that the Re-
publican candidates will have an
even higher majority than in the
republican ticket of 1920. No evi-
dence of deadlock is given in the
vote so far. Outside of the vote
polled by LaFollette in California
his showing as an active contender
for 1924 presidential honors is neg-
ative.

The poll by states on the three
leading candidates is as follows:

	Coolidge	Davis	LaFollette
1 California	1,624	233	1,561
2 Illinois	7,916	1,842	2,498
3 New York	711	135	209
4 Ohio	3,401	962	756
5 Pennsylvania	2,419	620	672
Total Votes	16,071	3,792	5,596

ported which may hurt our ex-
ports.

HUNT'S DAILY LETTER

By Harry B. Hunt

WASHINGTON, Sept. 20.—The
plan for a world census of agricul-
ture is arousing the keenest inter-
est among farm organizations all
over the country, among traders in
farm products, among bankers who
handle farm securities, among all
who are concerned for agriculture's
welfare.

The suggestion was made at the
International Institute of Agricul-
ture in Rome and Asher Hobson,
America's delegate to the institute,
is here discussing it with Agricul-
ture Department officials.

Obviously it is of first impor-
tance to any country's farmers to
know when they plant and harvest
about farm conditions in other
countries. They don't know now,
for many countries gather no such
statistics and others do it in so
many different ways that compari-
sons mean nothing.

The institute's idea is to have
them get together.

Only one difficulty presents it-
self. How is an agricultural com-
bination of this kind to be made ef-
fective without including Russia,
one of the world's most important
farming countries, potentially per-
haps the very most important?

And Russia isn't recognized by
the United States. If Russia re-
fuses to do so—which would be just
fatal to a satisfactory exchange of
information as it would be to have
Russia excluded.

"But the United States," you say,
"wouldn't be so foolish as to bar
Russia in a matter of this sort,
which has nothing to do with for-
eign government, international poli-
tics, debts or questions of diplom-
acy."

Don't be too sure of that. The
Washington government refuses to
accept weather reports from Russia
because she doesn't recognize Rus-
sia. Siberian weather news is
mightily important to forecasts in
this country. But forecasters have

to get along without it.

"It isn't even necessary to get it
direct from Russia. It's to be had
from Japan, which isn't so parti-
cular. But America won't touch it.
It's Russian and that ends it."

Officers of the Woman's Nation-
al Party aren't so sure "Ma" Fer-
guson is eligible for the Texas gov-
ernorship.

Paradoxically they rather hope a
supreme court test will prove she
isn't.

It is pointed out at party head-
quarters that the Texas common
law really does deny women the
right to hold executive offices. The
party leaders doubt if the federal
nineteenth amendment sets this
rule aside—it gives women the vote
but doesn't say plainly that they
may hold office.

Now the main object of the Wo-
man's National Party is complete
citizenship equally between men
and women.

Suppose the party managers say
"Ma" Ferguson after being over-
whelmingly nominated by the De-
mocratic state, is denied the right
to run.

Why, then, the managers feel
sure, public opinion will be so out-
raged that there'll be an immediate
demand for a change which might
otherwise be a long time in coming.

Timber conservationists are let-
ting out a wild wail at news that
the United States Shipping Board's
wooden fleet is to be burned.

This fleet of 218 vessels cost
\$235,000,000 originally. It's being
sold for \$102,000 to a private con-
cern which expects to make a profit
by taking out the metal work.

The scheme is to burn the ships
and let the metal simply fall out.
As ships, the conservationists au-
mit, the vessels may not be worth
much, but why they ask, burn all
these millions of feet of valuable
timber—with the country on the
verge of a timber famine?

The Shipping Board is inundated
with protests.

News from Three States

VIRGINIA

INJURED BY TRAIN

JONESVILLE, Va., Sept. 20.—
Ed Talley, of this place, was se-
riously injured when struck by an
L. and N. freight engine near Pen-
nington Gap. Mr. Talley was
driving a Ford coupe and evident-
ly not noticing the approaching
train, attempted to drive it across
the tracks at the crossing. The in-
jured man was taken to the Norton
hospital.

AIRMEN HUNT

BIG STONE GAP, Va., Sept. 20.—
W. H. Wren and his mechanic, a
Mr. Smith, were injured when Mr.
Wren's plane fell here. The plane
ran into an open air pocket, caus-
ing it to fall, according to reports.
The plane was badly demolished.

OPEN GRID SEASON
LEXINGTON, Va., Sept. 20.—

EVERETT TRUE—By Condo

KENTUCKY

ROBS POSTOFFICE

YANCEY, Sept. 20.—Otis Crider, a youth, was arrested here on Friday night while in the act of robbing the post office, according to officers. He was taken to Harlan where he was consigned to federal authorities.

BALL LANKFORD TRIAL
MANCHESTER, Sept. 20.—Trial of Smith Ball and Carr Lankford on charges of complicity in connection with the killing of Melvin Gergory, county patrolman, a few weeks ago at Harlan, is set for trial here Monday. A large number of witnesses has been called.

SHOOT AT GUARD
TWILA, Sept. 20.—Pierce Daniels, watchman for the Crech Coal company here, was surrounded by unknown men and shot at about 25 times. The shots were fired without previous warning. Sheriff J. H. Blair took bloodhounds to the scene of the shooting but no trace of the attackers was found.

REPORT COAL MERGER
HARLAN, Sept. 20.—Proposed merger of four mines, Lena Rue, Ellis Knob, Everts and the Three Point coal companies is reported. The consolidated companies would operate under one management, with headquarters at Lena Rue. Judge Hall and Frank Cawood will be general superintendents under the plan.

CLAIORNE SINGING
TAEWELL, Sept. 20.—Claior-
ne singing convention met Sun-
day at Cedar Grove Baptist church
near Cedar Fork with more than
fifteen chairs represented. It was
estimated that from 2,500 to 3,000
people were in attendance.

SKELETON PROBE
CHATTANOOGA, Tenn., Sept.
20.—Probe into the skeleton mys-

tery case was continued by the
grand jury yesterday. The defen-
dants, Mr. and Mrs. W. H. Bennett,
had waived examination. The in-
vestigation grew out of the finding
of a skeleton under the floor here
by workmen. It developed that
Miss August Hoffman, aged aunt
of Bennett, had mysteriously dis-
appeared in 1915.

SUPREME COURT MEETS
KNOXVILLE, Tenn., Sept. 20.—
One hundred and sixty-nine cases
comprise the docket of the fall ses-
sion of the Supreme Court which
opens here Monday morning.
Among the important cases are the
Fifth Ward election fraud case, W.
J. Savage vs. E. W. Neal, former
mayor and the final hearing of the
Ben Burchfield case for alleged
murder of his wife.

STRATON AT JELICO
JELICO, Sept. 20.—Dr. John
Rouch Straton, pastor of the Cal-
vary Baptist church of New York
and a lecturer of note, will address
the men of the Berean and business
men's classes at the First Baptist
church this evening.

POWELL'S VALLEY
POWELL'S VALLEY, Tenn.,
Sept. 20.—Powell's Valley High
School has opened with an un-
usually large attendance. The out-
look is very encouraging. Mem-
bers of the faculty are as follows:
Mathematics, Science, H. E. Wan-
labe, B. S. Lincoln Memorial Uni-
versity, English, French, Miss Cla-
ra Musterson, A. B. Carson and
Norman College (home Economics,
History, Miss Hazel Kelly, A. B.,
B. M. Lincoln Memorial Uni-
versity, Miss Edna Sharp has charge
of the music, and has a large class.
Librarian, Miss Pearl Moyers.

Mr. Berwin Stapleton is prin-
cipal of the Elementary Depart-
ment.

Miss Lulu Greer has charge of
the Intermediate Grades, and Mrs.
Laura K. Wright has charge of the
Primary and Kindergarten work,
assisted by Miss Elsie Gibson.

The school, as well as the com-
munity, feel very proud of the pre-
mium and honor received by them
in the Tri-County Fair held last
week at LaFollette, having each
won second place, there being more
competition than usual this year.
There were more exhibits and by
far better than has ever been put
on since the Fair began.

The Educational booth put on by
the school won second place, falling
16 points below Jacksonboro school.
The special entries won 29 blue and
red ribbons. Sewing and cooking
led in the number while the canning
department was close behind.

In the boys' relay, all the way
around the track, the winners were
Hollis Wilde, Sherman Mays, Jess
Assmus and Chester Rogers.
Hubert Snoderly won in the 100
yard race contest.

Rev. Farmer is conducting a se-
ries of meetings at Mountain View
this week. The sermons are in-
teresting and persuasive and the
crowds fairly good.

Several from the community took
in the show at Middlesboro, among
them were Mrs. Grover Sharp and
Mrs. J. T. Bruce and Mr. and Mrs.
E. B. Farris.

Mrs. Lulu Greer, teacher, spent
the week-end with home-folks at
New Tazewell.

Miss Ruby Farris, who is teach-
ing in the Knoxville city schools,
spent the week end with parents,
Mr. and Mrs. E. B. Farris.

CHARGE CABINET WITH BOLSHEVISM

Chamber of Deputies to Discuss
Regulation of Free Speech
in France.

Associated Press
PARIS, Sept. 1. Whether the
right of free speech ought to be
interpreted liberally enough to per-
mit extremes to preach civil war,
is a question that will be debated
in parliament when the Chamber
of Deputies meets after the sum-
mer vacation.

The opposition to M. Herriot's
government will endeavor, in this
discussion, to rally to it a consid-
erable number of deputies now sup-
porting the cabinet, but who are
the object of subversive agita-
tion. The question will arise in
the interpretation of M. Bon-
fous of the Seine et Oise depart-
ment; this deputy will demand an
explanation of the action of the
Minister of Public Works in plac-
ing 15 special trains at the dispos-
al of Communists, who met recent-
ly in the suburb of Garches, where
the doctrine of civil war was
preached openly by several orators,
including a Communist member of
the German Reichstag.

The adversaries of the govern-
ment will take the view that offi-
cial tolerance of such manifesta-
tions is outright encouragement of
Bolshevism.

Romanoffs Out of Gotha
GOTHA, Germany, Sept. 19.—
The new edition of the Almanac de
Gotha carries one line referring to
the Romanoffs, the former reign-
ing family of Russia. Six lines
printed paper did not suffice for
the animals of this family before
the war.

Thirty Minutes of Jazz With Sousa Syncopators

In thirty-one consecutive seasons at the head of the band which bears his name, music lover throughout America have become well acquainted with Lieut. Com. John Philip Sousa, and his estimable and hundred bandmen. Upwards of fifty millions of people have heard the Sousa concerts since 1892 when he resigned as director of the United States Marine Band to establish an organization of his own, and of late years the Sousa audience has grown to three millions of people annually. And this season, for approximately thirty minutes each program, the audiences will be introduced to the Sousa Syncopators.

Half an hour of modern syncopated music for this season, because of Mr. Sousa's firm belief that syncopated music has established itself permanently in America. Sousa does not believe that the popularity of syncopation has been at the expense of the older classical forms. Rather he thinks classical music and syncopated music, until it gradually merges itself into the general body of music, will prosper side by side, and it is because of this belief that it is played by Sousa's band for the first time. "Music of the Min-

istry this season, his famous band comes intact to the Main Theatre Monday October 13th. He will give two performances matinee and evening, changing program completely at each performance.

Dahlia Show This Week Was Best Yet

This week's exhibit of one flower-dahlia in the T. H. Campbell Bros. window was the best since the show began, due to the fact that flowers are keeping much better now than at the beginning of the season.

The following named dahlias were exhibited: Mrs. Richard Ramsey, Joseph, Bosworth, Mrs. Carl Salbach, by Mrs. Bosworth, Pure Gold, Snowdrift and Oregon Beauty by Alva Campbell; Millionaire Mrs. J. T. Evans and Pierrot, by Mrs. Ed. F. Hurst.

Specialties were: Preserved Night Blooming Cereus, Mrs. H. F. Handright. This flower will remain on exhibition during all next week's exhibit.

IRISH PATRIOTS WEAR TOP HATS

Free State Considers It Expedient to Return to Formal Dress.

Associated Press
DUBLIN, Sept. 20.—The Tailor-made and their accompanying social events have been remarkable for the revival in Ireland of the tall hat. Twenty years ago a black morning coat, striped trousers and a tall hat were the almost essential uniform of professional men, and no doctor or lawyer or official would wear them. An earlier style of dress gradually crept in, and for more than ten years tweeds and soft hats replaced the old dignities, and the tall hat was rarely seen except at funerals.

The more formal clothes have now returned. At social functions all the Free State officials and ministers wear them.

As the Independent puts it, this is "expressing homage to this very young state in terms of clothes. In a vulgar, modern, democratic age clothes matter tremendously, and there is no getting away from it. Outsiders judge us by appearance, not by what we are, and patriotism calls for the best show possible at all such public or semi-public events."

Rye Produces 900 Fold
Associated Press
VIRCHOW, Pomerania, Sept. 20.—From a single seed of rye, planted this spring by the village school teacher and nursed with fertilizers, 19 stalks were grown, and from the heads 900 grains were harvested. This is said to be a record in Germany. Agricultural experts consulted the schoolmaster as to what kind of fertilizer he used.

Dempsey Makes Fight Film Series for Universal C

Jack Dempsey isn't superstitious—he insists on that; but he won't work in pictures with a black cat for purely aesthetic reasons. Which is why work on his first new Universal picture of the "Fight, and Win" series under his recently signed contract with Universal, was delayed two hours, while frantic search was made for a cat of another color scheme.

The scene called for a cat invading a pile of prize money and chewing up a thousand dollar bill. Jack Elliot, head of the Universal City property department, advertised for a cat with a penchant for chewing paper. Six applicants arrived.

Jess Robbins, the director, prepared for the scene, and the cats were unloaded on the set, depleting a hotel room. Every one was black as coal!

Says He's Not Superstitious
"Take 'em away!" yelled the world's fistie champion. "I'll work with no black cats!"

"I'm not superstitious," he explains. "If the only cat available were black or if the story called for a black cat specifically, I'd work with it, but any kind of a cat will do in this scene—and a white cat or even a spotted one would look even better than a black."

So why tempt fate needn't be don't think there's anything to black cat superstition, although stage electricians do, but why unnecessary chances with it doesn't buy anything. It's just easy to get another kind of cat. So they got a black cat, the Dempsey new picture of which in which the champion is supported by a large cast of well known actors, comes to the Manning Theatre, commencing Wednesday, September 24th.

Hayden Stevenson of "Leather Pushers" fame, Esther, Carmelita Geraghty, Chuck Moran, George Ovey, Tom McManis, Ed Kennedy and James O'Rowe are some of the best known players who support the champion.

Thanksgiving is only a few weeks from here now, thank goodness.

Slogans of the Republican Forces Are Seen for the First Time When Dawes Is Notified of His Nomination

Funk and Wagnalls dictionary defines a slogan as "A battle or rallying cry; originally of the Highland clans." It is derived from two Gaelic words, one meaning "Army," the other "Yell."

Recently, General Charles G. Dawes was formally notified that he had been nominated as the Republican candidate for Vice-President. At the ceremony at his home in Evanston, Illinois, many of the Republican slogans for the present campaign made their first public appearance. As General Dawes made his speech of acceptance, he was faced a little distance off by a number of Republican women bearing standards with Republican slogans printed on them. The picture above shows a group of the Republican women who took part in the exercises marking the official notification.

Right in the middle at the back of the picture is the slogan which appeared to register best with the crowds who swarmed to hear General Dawes told of his nomination officially, and to hear his official acceptance of the honor. "Keep Coolidge! He Keeps the Faith!"

made a hit with the many thousands, and their approval was not silent.

The crowd got a hearty laugh from the slogan shown third from the right end in the front row—"Suppose Madison Square Garden Had Been Congress!" "Coolidge, Dawes and Common Sense" seemed to the crowd present on this occasion to make a pretty acceptable trinity of men and ideas. It might be said that "Vote as You Should for Your Country's Good" is not the slogan of a party—but the Republicans feel that it is certainly a Republican slogan.

In the picture, in the front row, from left to right, are Miss Martha Meaker, Miss Helen Baird, Betty Jane Webster, Mrs. Arthur H. Morey, Miss Icel Radke, Miss Lillian Nolan and Miss Louise Frye. Behind them from left to right are shown Miss Pauline Malik, Mrs. C. E. Gilson, Miss Maydawn Cook, Miss Verna C. Daniels, Miss Gertrude Gilman, Miss Lucille Garrison, Mrs. Ralph Gregerson, Miss Rosalind Springer, Miss Nora Northman, Miss Lillian Langerman, and Miss Loretta Koch.

DUTCH COUNTRY WILL ADVERTISE

Attempts to Remove Mistaken Idea Regarding Holland Developments.

Associated Press
AMSTERDAM, Sept. 19.—Anti-Dutch ideas about Holland that prevail abroad, and often move the present generation of Dutch people to mild resentment, have at last been tracked to their origin.

A learned society which has made a thorough investigation into the current geographical text books and manuals used in elementary and secondary schools in all civilized countries of the world, has published a report which discloses that most of them are about 100 years behind the times.

Horse drawn canal barges, for instance, are still given as the popular mode of locomotion in Holland, and while references to cows and windmills are plentiful, the books are silent on the development of modern Dutch dairy farming and other industries of the country.

In one instance, a text book drew a picture of Dutch conditions as they existed 300 years ago.

The society in question has appointed a committee to remedy this state of things by vigorous efforts abroad to bring knowledge about present-day Holland some what more up to date.

Violates No Smoking Rule on Big Airship

FRIEDRICHSHAFEN, Germany, Sept. 20.—Dr. Hugo Eckener, who will pilot the airship ZR-1 on her voyage to the United States, who makes the rule that no one on board the vessel shall smoke at any time, and he is also the only man who breaks this rule.

Smoking on board an airship is exceedingly dangerous. An open flame might at any time ignite the gas. But the doctor, who is very fond of his pipe, occasionally takes himself in the pilot house and sits alone, takes a short smoke.

Falk Stalking Record of Babe Ruth For Batting Honors With Mark .357

Associated Press.

CHICAGO, Sept. 20.—Bib Falk, the big Texan from Baylor University, by his heavy hitting and great playing for the White Sox, is fulfilling a prediction made by the late Frank Chance, a few days after the "Peerless Leader" had signed to manage the club, but whose health interfered.

"Keep that young fellow Falk in the game regularly and it will not be long before you will find him batting rings around all the rest of them," Chance declared. Averages included games of last Wednesday showed Falk trailing the Babe Ruth for the batting honors of the American League with a mark of .357.

Ruth tops the list with .384. The averages are of players who have participated in 100 or more games. Falk has participated in 127 games and cracked out 171 hits.

Walter Johnson, veteran pitcher of the Senators, who was voted the most valuable player of the season to his club, acquired another honor when in defeating Cleveland, he hung up his 22nd victory, one ahead of Herb Pannack, star south-paw of the rival Yankees.

Eddie Collins added two more stolen bases, leading with 41. Babe Ruth is 13 home runs under his record of 59.

Other leading batters: Jamison, Cleveland, .353; E. Collins, Chicago, .348; Speaker, Cleveland, .346; Bassler, Detroit, .346; Myatt, Cleveland, .336; Rice, Washington, .335; Cobb, Detroit, .334; Boone, Boston, .334.

Jimmy Bottomley, Cardinal first sacker, has entrenched himself safely among the ten leading hitters of the National League with an average of .331. Jimmy gained eleven points in a week. Rogers Hornsby, who touched the peak of his batting prowess about three weeks ago, and then was injured, returned to the game, but he made only four hits in four games, and dropped to .424. This mark, however, is far enough in front to again crown him champion. Hornsby leads in total bases with 350.

Jack Fournier of the Dodgers, leads the home run hitters with 27. Cy Williams of the Phillies is next with 21. Max Carey with his 43 thefts has the honors for base stealing. Other leading batters:

Wheat, Brooklyn, .372; Cuyler, Pittsburgh, .363; Young, New York, .354; Bressler, Cincinnati, .346; Rousch, Cincinnati, .343; Fournier, Brooklyn, .335; Kelly, New York, .333.

A new American Association batting leader has stepped in the line, light in the person of Lester Bell, former member of the St. Louis Nationals, who is playing short for Milwaukee. Bell collected 20 hits in 34 times at bat, which boosted his average to .363, five points ahead of Johnny Neun, St. Paul, who headed the procession last week. Neun in the week suffered a loss of ten points. He trails Bell with .358.

Christiansen, St. Paul, leads as a run getter with 137 but is being closely pushed by Neun who has registered 138 times. Neun, by stealing three more bases is now showing the way with 53 thefts, while Elmer Smith the Louisville slugger, failed to increase his home run mark of 28.

Bowman Packs Real Speed

Chet Bowman Bucking the Shoulder Straps

Syracuse University, in Chester Bowman, has one of the fleetest football backs in captivity. Chet, besides being a gridiron star, is a great track man and was one of the American Olympic team stars.

Just by way of showing that Chet has many things in common with a race horse, you see him here in a harness rigging. The start he's doing is part of the football seasoning and is called "bucking the shoulder straps."

Other leading batters: Dressen, St. Paul, .353; Earl Smith, Minneapolis, .349; Murphy, Columbus, .349; Brief Kansas City, .342; Russell, Columbus, .341; Krueger, Indianapolis, .338; Elmer Smith, Louisville, .336; Kirke, Minneapolis, .336.

With the pennant race settled in the Southern Association, and Red Smith of Atlanta the batting champion for 1924, the remaining days will witness a hot scramble for second place honors among the batters. Dick Burris, another member of the Atlanta Club at the present is holding down this honor with an average of .374 compared with Smith's mark of .355.

J. Stewart of Birmingham, is the base stealing champion, his record showing 60 thefts. J. Anderson of Chattanooga ran his string of homers to 26, while Paschal of Atlanta ran his total of runs scored to 135 before he departed to join the Yankees. Neuhaus is leading in total bases with 345.

Heavy Run of Salmon Keep Fishmen Busy

By Associated Press.

VICTORIA, B. C., Sept. 19.—The salmon run in British Columbia rivers is the largest since the record of 1919, according to reports received by Hon. William Sloan, provincial commissioner of fisheries. Canneries along the Fraser, Skeena, and Neus rivers are working day and night shifts in an effort to take care of the catch.

The catch of sockeye, Mr. Sloan said, will be the heaviest in years. The marked increase in quantity this year will mean greater prosperity for the salmon industry.

The total value of the fisheries production of Canada was \$12,515,540 last year, according to the annual report, or an increase in value of \$765,335 over 1922.

The amount of capital represented in fishing vessels, boats, nets, traps, piers, and wharves employed in catching and landing the fish in 1923 was \$23,645,316. The number of men employed in these operations was 53,517.

U. S. INVENTION HELPS JAPANESE

Tremor Recorder Helps Nippon Foretell Seismic Disturbances.

Associated Press.

TOKIO, Sept. 19.—Japan, more severely haunted by earthquakes than any other land, plans to turn to in earnest to study the tremors, means of forecasting them, and methods for mitigating their disastrous effects.

Plans and estimates for a system of seismological research stations, to be placed in nine separate districts particularly affected by earthquakes, will be laid before the Imperial diet when it convenes next December.

Dr. Imamura, head of the seismological department of the University of Tokyo, believes that earthquakes can be foretold with sufficient accuracy to permit precautions that will lessen their ill effects. This will be possible through the equipment of these nine stations with the most modern seismological instruments. Every known method will be used to study formations and movements of the earth which may precipitate a disastrous tremor.

The feature of this equipment will be an American apparatus for recording the movements of the earth crust, designed by Dr. A. A. Michelson, head of the department of physics of the University of Chicago. This consists of two iron pipes each, 502 feet long and 6 inches in diameter, laid across each other, imbedded in concrete and iron casing, and filled with oil and water. The instrument, according to Dr. Imamura, is so designed that the movement of the lines formed by the meeting of the oil and water in the pipes can be observed by means of an arrangement of prisms. The theory is that when the lines have shifted to certain positions the early approach of an earthquake is to be expected. Dr. Imamura says, however, that the exact time of the vibration cannot be foretold. An eight acre field will be needed for the installation of each station.

L. M. U FOOTBALL SEASON STARTS

Schedule Announced—Forty Candidates Answered Call of Coach Garrett.

HARROGATE, Sept. 20.—Lincoln Memorial University football has started off with a bang. Forty candidates answered Coach Garrett's call the first day of practice Monday.

Fifteen letter men have returned, as well as new candidates who have played elsewhere. With these old men returning and the new candidates getting in trim it seems as if L. M. U. will be a strong contender in the Appalachian Conference this year.

The new men who are coming in are: Hal of A. & M. College, Texas; Hoson, Davis, Davidson, all from Albany, Georgia; Hitch Gann from Tenn. Tech; Baxter and Simpson from Lynchburg High; Spruce, of West Virginia, a promising high school lad, and Sloan of Middlesboro. All of these candidates are looking in great form and prospects for the material is very promising.

With the return of Holberry, Turner, Brown, Garrett, Pettigrew, Mauley and with the combination of new material, Coach Garrett hopes to make a record breaking football machine.

The schedule for the season is as follows: Oct. 4—Maryville at Maryville. Oct. 18—Tusculum at L. M. U. (Pending) Oct. 25—Hixson at Madisonville. Nov. 1—Union at Middlesboro. Nov. 8—E. K. S. N. at L. M. U. at Middlesboro. Nov. 15—Concord State at Blufffield, W. Va. Nov. 21—Emory and Henry at Emory. Nov. 29—Milligan at Johnson City. (Pending)

Southern Will Play Tazewell Tomorrow

With the baseball season now drawing to a close the game between the Southern Railway team and the Tazewell players, scheduled to take place at the East End park at 1:30 tomorrow, will be of special interest to local fans.

The local boys announce that this will be their last game of the season. The Clatsone Countians have won a reputation of being fast and furious players, one of their achievements being the defeat of the U. T. C. team here. However, the local boys are not fearing the outcome of the encounter and hope to all the Tazewell scamp among their collection of the season.

Jack's Synthetic Profile

JACK DEMPSEY

But yes, my good Gottlieb, you were right the first time. This is the real Mr. Dempsey. The picture, which was snapped while Gentleman Jack was watching the New York police games at the Jamaica (L. I.) race track, affords a very good view of the new-Dempsey proboscis—sometimes vulgarly referred to as a nose.

thousand has been maintained. These two facts combined produce a great natural increase in population. The mortality of infants before reaching one year of age is only 10 percent in Argentina, compared with rates of from 3 to 25 percent in other countries.

AVIATOR BALKED BY AN EVIL SPIRIT

Islanders Attribute MacLaren's Ill Luck to Machinations of Evil Spirits.

Associated Press.

TOKIO, Sept. 19.—All fortune, which attended the attempt of A. Stuart MacLaren, British round-the-world aviator, and his companions to fly across the remainder of the globe after leaving Japan, is attributed by the natives of Urup Island, one of the bleak Kuriles, to the airman's own indifference to evil spirits.

When Major MacLaren's big Vickers amphibian hopped off from Tashiro, Yotorin Island, one day in July, with Paramushiro Island, at the north of the Kurile chain, as its goal, fog and wind compelled him to land at Totokan Bay, on the southwest coast of Urup Island. The bay is exposed, and when the wind rose Major MacLaren flew his plane a short distance inland, alighting on a body of brackish water known as Totokan bog. In so doing, according to the sparse population of Urup Island, he courted the malevolence of evil spirits.

Totokan bog is an ill-omened water. The natives say it is bottomless, and that no man has ever entered its waters and come out alive. There is an evil female spirit, the natives believe, who makes a specialty of handsome men, and when such a one comes to the bog he "vanishes like smoke" and his body is seen no more.

Four years ago two sailors attempted to cross the bog by swimming. They were seen to reach the middle of the lake, swimming strongly and then together went down without a sound.

Major MacLaren rested for four days on the shores of the bog, living at an experimental fox farm maintained on the island by the Japanese Department of Agriculture and Commerce, and then happened off on a successful flight to Paramushiro.

Americans Honored For Aid to Japanese

TOKIO, Sept. 19.—Special honorary memberships in the Japan Red Cross and medals of merit have been conferred on Admiral Edwin A. Anderson, U. S. N., and Major-General George W. Read, U. S. A., in recognition of relief services at the time of Japan's great earthquake last September.

At that time Admiral Anderson commanded the United States Asiatic Fleet, which brought the first outside aid to the stricken areas, and General Read was in command of the Department of the Philippines, from which the first considerable shipments of relief supplies were sent.

Among other foreigners who received similar recognition is Giacomo de Martino, the Italian Ambassador.

JILLSON FINDS GLACIAL ROCKS

Pebbles Found Near Big Sandy and Licking River Denote Former Glacier.

Associated Press.

FRANKFORT, Ky., Sept. 19.—New discoveries of glacial pebbles in Eastern Kentucky were announced by Dr. Willard Jillson, state geologist, today.

"These pebbles range in elevation from 750 feet of the Big Sandy river to 850 feet on the North fork of the Licking river, and have been found in Lawrence, Elliott, Morgan, Lewis, Carter and Boyd counties," he said.

"Field evidence indicates that similar pebbles also may be found at similar elevations in parts of Menifee, Greenup and Rowan counties, though these are not a certainty. The drainage system involved in these discoveries include the Big Sandy river, Little Sandy river, and Tygart's creek, and the North and Elk Forks of the Licking river.

"Had the coal measure sediments less completely met the erosive action of surging glacial waters the course of the then formative Ohio river would undoubtedly have been directed up the valley of the Little Sandy river and down the Licking river."

Such a hypothetical change in the pattern of the Ohio river would have reduced the area of Kentucky by 2,500 square miles placed Lexington, the heart of the Blue Grass region, within 35 miles of the Ohio, and profoundly altered the history and economics of the entire Ohio valley."

Tax Swindles Drive Poles Across Border

Associated Press.

WARSAW, Sept. 19.—Its suspicions having been aroused by the abnormally small income returns filed by some important concerns in Polish Upper Silesia, the government sent a special mission to make investigations on the spot.

It was disclosed that two industrial firms had carried duplicate sets of books, one secret and the other public. One concern reported a taxable income of 150,000,000 zlotys, while the hidden books showed it should have reported 600,000,000. The fines to be imposed would reach 5,000,000 zlotys. Some arrests have been made but the directors of the two companies have escaped to Germany.

Do You Own the Home You've Paid For?

If you have been renting for the past ten years, you've paid for a home, but it isn't yours. If those monthly rental charges had been paid as installments on your own home, you would today be your own landlord. The money you now pay for rent receipts could go into a savings account each month. Buying a home of your own is a good way of cutting the high cost of living. Why not start today? Let us explain to you our plan of home financing.
